WEBSITE TIPS - www.idwr.idaho.gov

Main menus like on-line data etc. - upper left corner, select for more details. Most IDWR records are organized by township, range and section. Township, range and section information is usually available from county assessor offices. For best results, try a **broad search first and narrow the search as needed** to avoid overlooking the information you seek.

Water Right &/or Adjudication information: on-line data, then **water right & adjudication search**. For type of query, select **all srba & water rights** then click the **where** tab and enter township, range, section (and maybe $\frac{1}{4}$ or $\frac{1}{4}$ of section). Be sure to choose "Point of Diversion" or "Place of Use" depending on the information you need ("both" means diversion and use within identical search parameters, not that either are within the parameters).

Well Log information: on-line data, then **well construction search**: enter the township, range and section. Select **Summary Results** displayed in table format for easy use, select individual record from table for scanned well log. Most well logs have been scanned and are available on the Internet.

Forms, rules, statutes etc. are also available on-line. If you cannot find information or have trouble interpreting information, please contact the IDWR staff person on duty each day. This person is called the "office day" person and is available for general assistance. Call the office day person at 208-334-2190 between the hours of 8 and 5 Monday through Friday. Thank you for using the website.
